

I International Symposium of Thrombosis and Anticoagulation in Internal Medicine

**Hotel Maksoud Plaza
São Paulo SP Brasil**

October 23 - 25, 2008

Organization:

Duke Clinical Research Institute

CO - CHAIRS

Renato D. Lopes

Universidade Federal de São Paulo (UNIFESP-EPM)

Duke University (USA)

Richard C. Becker

Duke University (USA)

INTERNATIONAL PROFESSORS

Christopher B. Granger - Duke University (USA)

David Garcia - University of New Mexico (USA)

Elaine Hylek - Boston University (USA)

NATIONAL PROFESSORS

Ana Rocha

Antonio Carlos Carvalho

Antonio Carlos Chagas

Ari Timerman

Carlos Alberto Moreira Filho

Dayse Maria Lourenço

Edison Ferreira de Paiva

Elbio Damico

Eulógio Emilio Martinez

Francisco Humberto Maffei

Helena Bonciani Nader

Hélio Penna Guimarães

José Carlos Nicolau

José Mendes Aldrighi

Miguel Cendoroglo

Protasio Lemos da Luz

LANGUAGE

English is the official language of the Symposium.

1st International Symposium of Thrombosis and Anticoagulation in Internal Medicine

As the President of the Brazilian Society of Internal Medicine I am honored to welcome you to the **1st. International Symposium of Thrombosis and Anticoagulation in Internal Medicine.**

The main purpose of this symposium is to discuss the most recent evidence on thrombosis and anticoagulation, including new agents under development. The focus is to understand how to better apply the evidence into clinical practice so that the patients will gain and you will enhance the quality of care you offer your patients. This meeting provides a unique opportunity to witness the latest knowledge in this field.

The clinical aspects including the most update treatments are our major concern in order to offer you concise answers that will help in the patient management on a day-by day basis.

I Hope you enjoy this scientific program and take advantage of the presence of our expert national and international faculty.

Antonio Carlos Lopes, MD, PhD, FACP

The opportunity to share ideas, and advance the care of patients with thrombotic disorders, is the fundamental tenet of practicing clinicians worldwide. This can only be accomplished through knowledge gained from carefully designed, meticulously conducted and honestly interpreted translational and clinical research.

True to the lasting spirit of scholarly interchange, the **International Symposium of Thrombosis and Anticoagulation in Internal Medicine**, is a scientific program developed by clinicians for clinicians.

Our primary objective over the next 3 days of devoted, academic presentations and open discussions is to educate, motive and inspire internists, cardiologists and hematologists by convening National and International Visionaries, thought-leaders and dedicated Clinician-Scientists in Sao Paulo, Brazil.

Thank you for joining us and welcome to the Symposium.

Renato D. Lopes, M.D.

Richard C. Becker, M.D.

SCIENTIFIC PROGRAM

OCTOBER 23, 2008

09:00 - 09:10

Opening

Antonio Carlos Lopes, Renato D. Lopes and Richard C. Becker

Session I

President: Eulógio Emilio Martinez

09:10 - 09:30

Importance of thrombosis and anticoagulation in clinical practice

Richard C. Becker

09:40 - 10:00

Endothelium - What is the role in thrombosis?

Protasio Lemos da Luz

10:10 - 10:30

Pathways of coagulation

Dayse Maria Lourenço

10:30 - 10:50

Coffee Break

10:50 - 11:10

Pharmacokinetics and pharmacodynamics of heparin

Helena Bonciani Nader

11:20 - 11:40

Pharmacokinetics and pharmacodynamics of vitamin K antagonists

Francisco Humberto Maffei

11:40 - 12:00

Questions

12:00 - 14:00

Break

Session II

President: Christopher B. Granger

14:00 - 14:20

**Anticoagulation in acute coronary syndrome with ST
- segment elevation**

José Carlos Nicolau

14:30 - 14:50

**Anticoagulation in acute coronary syndrome without ST
- segment elevation**

Ari Timerman

15:00 - 15:20

Atrial fibrillation and acute coronary syndrome

Renato D. Lopes

15:30 - 15:50

Stroke prevention in patients with atrial fibrillation

Elaine Hylek

15:50 - 16:30

Coffee Break

16:30 - 17:00

Atrial fibrillation: What did we learn from the trials?

Elaine Hylek, Christopher B. Granger and Renato D. Lopes

17:10 - 17:40

Case

Christopher B. Granger and Miguel Moretti

OCTOBER 24, 2008

Session III

President: Francisco Humberto Maffei

- 09:00 - 09:20** Improve and endorse - Epidemiology study
Ana Rocha
- 09:25 - 09:55** Brazilian Guidelines for venous thromboembolism prophylaxis
in medical patients
Edison Ferreira de Paiva
- 10:00 - 10:20** From theory to practice - Safety Zone Program
Edison Ferreira de Paiva
- 10:20 - 10:40** Coffee Break
- 10:40 - 11:10** Optimal duration of therapy for VTE
David Garcia
- 11:15 - 11:45** Prevail and Exclaim Study
Ana Rocha
- 11:50 - 12:10** Orthopedics surgery - How to prevent thromboembolic events?
Hélio Penna Guimarães
- 12:15 - 12:45** Case
Richard C. Becker
- 12:45 - 14:00** Break
-

Session IV

President: Richard C. Becker

- 14:00 - 14:40** Bridging (Perioperative) anticoagulation
- Risks and benefits
David Garcia
- 14:50 - 15:10** Valve disease: When and how to do the anticoagulation?
Antonio Carlos Carvalho
- 15:20 - 15:50** Predicting bleeding risk for patients contemplating warfarin
- Where do we stand now?
Elaine Hylek
- 16:00 - 16:20** Coffee Break
- 16:20 - 16:50** New anticoagulants in development
Christopher B. Granger
- 17:00 - 17:30** Case
David Garcia and Renato D. Lopes

SCIENTIFIC PROGRAM

OCTOBER 25, 2008

Session V

President: Miguel Cendoroglo

- 09:00 - 09:20** **When and how to do the anticoagulation in patients with cancer?**
Elbio Damico
- 09:30 - 10:00** **Hormone therapy versus thrombosis**
- **Where do we stand in 2008?**
José Mendes Aldrighi
- 10:10 - 10:40** **How to diagnose and treat heparin induced thrombocytopenia?**
Richard C. Becker
- 10:40 - 11:00** **Coffee Break**
- 11:00 - 11:30** **Future directions: pharmacogenomics**
Carlos Alberto Moreira Filho
- 11:40 - 12:00** **Questions and closing remarks**
Richard C. Becker and Renato D. Lopes
